**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

In re application of  
Cecil E. Williams Jr.

Docket No: 476901

Serial No: 09/652,279

Group Art Unit: 2632

Filed: August 13, 2001

Examiner: V. Trieu

**Illuminating light display apparatus for USB**

**AMENDMENT**

Assistant Commissioner for Patents,  
Washington, D.C.

**RECEIVED**

APR 22 2002

Special Program Unit  
Gr 2632

Sir:

In response to the Office Action of **December 14, 2001**, please amend the above-identified U.S. Patent application as follows.

**IN THE CLAIMS**

Please cancel claim: 1 without prejudice or disclaimer to the subject matter therein. Please add new claim 2 as follows.

2 (New) An illuminating instrument for illuminating a surface through means of an universal serial bus, comprising: a light source, an elongated universal serial bus wire coupled to said light source, a flexible stabilizing element connected between said light source and universal serial bus connector, which comprised of plurality of core elements; a plurality of core-elements adapted to a universal serial bus connector.

**REMARKS**

In view of the above amendments and the following remarks, reconsideration and further examination are requested.

Claim 1 has been rejected under 35 U.S.C. § 102(b) as being anticipated by Kim (US 5,938,770). Claim 1 has been cancelled and are replaced with new claim 2.

Claim 2 has been drafted to further distinguish the present invention over the reference relied upon by the Examiner. As a result, the above-mentioned rejections are submitted to be inapplicable to the new claim for at least the following reason.

Newly added independent claim 2 is patentable over Kim, since claim 2 recites, in part, given the reasons why your claimed elements and our invention are different from rejected reference of Kim and other cited references.

In view of the above amendments and remarks, it is submitted that the present application is now in condition for allowance. The Examiner is invited to contact the undersigned by telephone if it is felt that there are issues remaining, which must be resolved before allowance of the application.

Respectfully submitted,  
Cecil E. Williams Jr.

Pro-Se Inventor
